Pg 1 — Sanjeev Kumar Singh (IBM18CS093)

Write a C++ program to emulate Unix ln command.

```cpp
#include <iostream>
#include <unistd.h>
int main (int argc, char *argv[]){
    using namespace std;
    if (argc != 3){
        cout << "Usage ./a.out Source file destination file";
        return 0;
    }
    if ( link (argv[1], argv[2] == -1)){
        cout << "Can't link";
        return 1;
    }
    else {  cout << "files have been linked" << ; }
        return 0;
    }
```
